LinkedIn, GitHub, Website

Ankara, Turkey

EDUCATION

Bachelor of Science

Cankaya University, Ankara

Software Engineering

GPA: 2.87/4

2020 - Present

High School

ABC High School, Ankara

2015 - 2019

WORK EXPERIENCE

Tesodev.
Istanbul, Turkey

July - September 2023

Backend Developer Intern

During my internship at Tesodev, I worked on back-end side software development. I learned how the life cycle of software development team processes. During the program, I researched about the fundamentals and general theory of the back-end software development. I focused on these kind of technologies:

- C# and .NET framework.
- NoSQL, MongoDB.
- RESTful API infrastructure.
- Several examples for middleware, validation module architectures.

Büyük Savunma ve Yazılım Teknolojileri
Ankara, Turkey

July 2024 - Present

Artificial Intelligence Intern

I am currently doing an internship in the field of artificial intelligence at "Büyük Savunma ve Yazılım Teknolojileri A.Ş."

Relevant Skills

- Java
- C#
- C
- Python
- NoSQL, MongoDB
- .Net Framework
- Concurrent Programming
- Operating Systems
- Data Structures and Algorithms
- UML Diagrams
- Software Requirement Analysis
- Fundamentals of Software Architecture

About Me

As a third-year Software Engineering student at Cankaya University, I am deeply passionate about exploring the realm of computer science and continuously expanding my knowledge. Additionally, I thrive in collaborative environments and enjoy working in teams.

Outside of academia, I am a very social person. I like to do different activities with my friends. I have also played tennis intermittently for five years and recently started playing the piano.

I would like to work in an environment where I can improve my skills related to computer science.
